April 2024

Aegon Bank N.V. changed its name into Knab N.V. As a result of name change the names of the relevant CB entities has been changed into Knab and with the next update of the prospectus the name of the SBCB Programme will also change

within Aegon as the first online bank in the Netherlands

a.s.r. acquired Knab as integral part of Aegon Nederland

a.s.r. announces the sale of Knab to BAWAG

Expected closing of the sale of Knab to BAWAG

Knab's profile and ambition

Position of the bank

- a.s.r. acquired Knab as an integral part of former Aegon Nederland since 4 July 2023, wherein it has been integrated since 1 October 2023
- In February 2024 a.s.r. announced the sale of Knab to BAWAG, which is expected to close in H2 2024
- a.s.r. will provide extraordinary support to Knab until the transaction closes and following a successful closing, BAWAG will take over this support

Profile of the bank

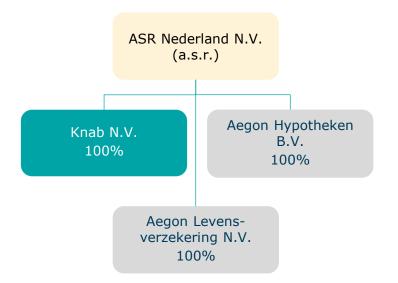

- On 4 April 2024, Knab changed its statutory name from Aegon Bank N.V. into Knab N.V.
- Knab is one of the fastest-growing banks in the Netherlands, with a differentiating proposition for self-employed entrepreneurs and a high level of customer satisfaction
- Access to self-employed customers and SME segments through its direct channel
- Knab has a fee generating strategy focusing on package fee(s) and increase sale of auxiliary (partner) products for its entrepreneurial customer base
- Knab offers retirement savings and investment solutions¹ for its customers

Own asset origination for future growth and to reach target scale

- In 2023 Knab started with originating SME loans for its own customers. This will extend towards non-Knab customers in 2024
- In 2024 Knab will start with the origination of own mortgage loans (tailored for self-employed customers)
- These new offerings allow Knab, next to the new pension investment product, to increase focus, improve its position for growth, reduce costs and add more value for our customers

Simplified organization structure

Situation until H2 2024

knab

Knab will become part of BAWAG in H2 2024

Under BAWAG ownership Knab will continue to grow its retail and SME business

Position of the bank within BAWAG

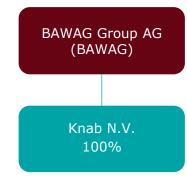

- With this acquisition BAWAG will acquire 100% of the shares in Knab
- The acquisition will expand BAWAG's footprint in the Dutch retail and SME banking market and position it for future growth in one of the bank's core markets
- BAWAG will work with the current Knab leadership team to continue growing its retail and SME business in the Netherlands
- In addition to the acquisition of Knab, an agreement was reached to transfer the management of the servicing of mortgages on Knab's balance sheet from a.s.r. to BAWAG in due time after closing

Profile of BAWAG

- BAWAG rated A1 by Moody's is a publicly listed holding company headquartered in Vienna, Austria, serving 2.1 million retail, small business, corporate, real estate and public sector customers across Austria, Germany, Switzerland, Netherlands, Western Europe and the United States

History

Online Knab banking platform launched in 2012

Size Total assets EUR 17.1 billion (H1 2023)

Employees

over 400 internal employees (FTE) (Q1 2024)

Investments

Approximately **69%** of total assets invested in prime Dutch retail mortgages, of which **56%** NHG guaranteed and an average Loan-to-Value of **60%** (H1 2023)

The business model of the bank

Focusing on growing self-employed and small business customers

Banking services

- Knab's purpose is to make "Entrepreneurs feel at ease when it comes to their finances, every day"
- Growing online banking platform with strong market position, focusing on self-employed and small business customers
- Focus on being a scalable, retail bank with strong strategic alliances
- Full retail banking product suite with payment services, (retirement) savings products, investment products, partner products (incl. insurances) and alerts
- New Value Stream Lending for origination to small business customers
- Former Aegon labelled savings and investment products have been fully migrated to the strongly positioned Knab label

Net interest margin

- Asset mix mainly consists of high-quality mortgages originated¹ and serviced through Aegon Hypotheken and Robuust Hypotheken
- Consumer & small business loan portfolio originated through partners is currently in run-off and strongly reduced in size. In January 2024, the portfolio decreased to less than 1% of the balance sheet of which over 80% is guaranteed by the UK government.
- New origination of SME loans takes place through internal origination under the Knab label.

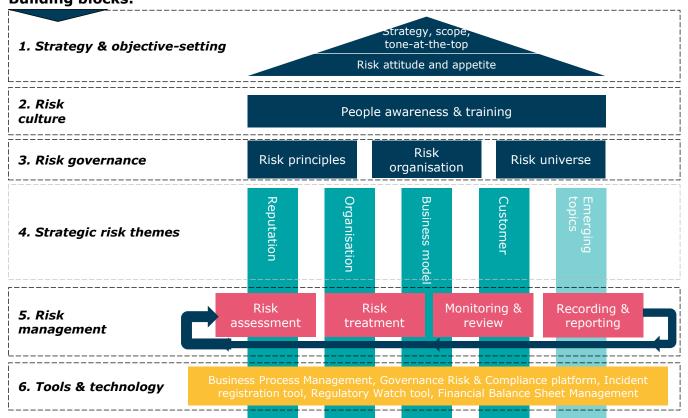

Service management fees

- Fee business from banking services, including offering partner products, payment services and investment products
- Focus on increasing fee business through offering of new valueadded services, such as accounting package solution and business insurances

ERM Framework The ERM framework enables Knab to effectively perform its risk management activities

ERM Framework explained

- The purpose of risk management is the creation and protection of value to Knab's customers, employees and shareholders. It improves performance, encourages innovation and supports the achievement of objectives
- The aim of the ERM Framework is to enable Knab to effectively deal with uncertainty and opportunity, by enhancing the organization's capacity to build value which contributes to the fulfilment of its strategy. In addition, risk management facilitates the alignment of strategy and risk appetite. The execution of the ERM process is a continuous and iterative undertaking, including periodic or ad hoc adjustment of the strategy and risk tolerance based on emerging risk information or changes in the business (environment).
- The ERM Framework is designed to be fit for purpose for Knab's size and market context. It recognizes that Knab operates in a highly scrutinized regulatory environment and Knab's focus for ongoing development of services and product offerings.

Knab's sustainability objectives

Our objective is to make the world a better place for current and future generations

Make it a better place – Global

- Knab is an active member of Aegon Nederland's Responsible Investment Committee, which monitors Aegon Asset Management's investment portfolio and Aegon Hypotheken's mortgage portfolio
- Focus on measuring and reducing the greenhouse gas emissions (and CO₂ emissions in particular) associated with our investments
- Mortgages are Knab's largest asset class, consisting solely of residential Dutch mortgages. An energy efficiency label is available for 95% (FY 2022 and FY 2021: 96%) of the collateral

Make it a better place – The Netherlands

- By constantly engaging with entrepreneurs, Knab learns more about their situation, ideas and opinions on financial topics
- Knab shares outcomes of its research among its customer base with the broader public through publications and the 'Knab Bieb' (in 2022, 70 articles were added to this online library with over thousand articles and during the year the library was consulted almost 2 million times)

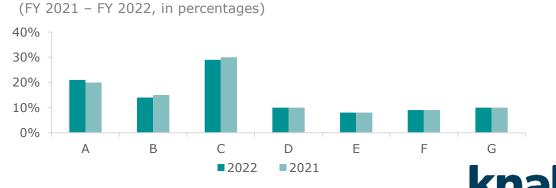

Knab - Internal

- Our people are who make Knab. Not only do we believe that fostering a workplace where everyone can be their true self is the right thing to do; we also believe that this make us stronger as a company
- In 2022, we increased the percentage of women in leadership positions from 27% to 37% and focused our efforts on increasing the number of women in tech positions. Also, we implemented multiple initiatives to reduce hiring bias, for instance by discarding academic requirements for open vacancies

Balance sheet composition - Assets

69% of total assets allocated to prime Dutch residential mortgage portfolio mainly complemented by cash and tradable debt securities

Cash

Decreased LCR of 187% per H1 2023 (223% FY 2022), driven by steering the LCR to a more efficient level due to improved access to new mortgages and an outflow of savings over H1 2023

Mortgage loans

- Prime Dutch residential mortgage portfolio with an average Loan to Value of 60% per H1 2023
- 56% of Knab's mortgage portfolio is guaranteed by Dutch state through NHG¹ scheme per H1 2023, which is significantly above market average. Dutch mortgage market origination² consisted for 20% of NHG
- Significant portion of the mortgage loan book is eligible to be used in the cover pools of both the CPTCB and SBCB Programmes
- Knab applies standardized approach for all its asset classes, including mortgages

Consumer & small business loans

 Knab decided to put the current unsecured loans through 3rd party lending into run off (significant decrease in credit risk in the loan portfolio) and to start with own loan origination and servicing by the Value Stream Lending

Debt securities (FVOCI³)

- Investment grade debt securities are used as tactical assets to manage liquidity
- Debt securities portfolio can be subdivided into mainly Sovereign bonds and Corporate credits

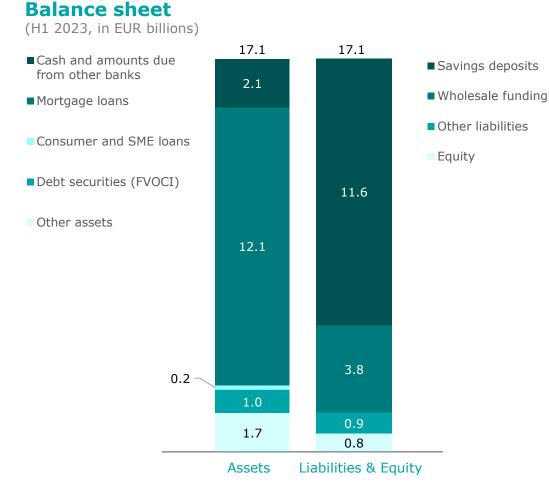

1. NHG: Nationale Hypotheek Garantie; this is a government guarantee scheme for retail mortgage debt

2. Source Hypotheken Data Network (FY 2022)

3. FVOCI: Fair Value through Other Comprehensive Income

Balance sheet composition - Liabilities & Equity

Primarily funded through savings deposits and Covered Bonds

Savings

(FY 2022)

- Savings base consists for 76% of `On demand' variable rate savings of which over 80% is guaranteed by the DGS¹
- 24% of total savings consists of fixed term deposits and annuities, providing a stable source of savings for Knab

Wholesale funding

- In May 2023, the second Conditional Pass-Trough Covered Bond (CPTCB) of EUR 500 million matured
- In June 2023, Knab successfully issued its second EUR 500 million Soft Bullet Covered Bond (SBCB)²
- Approximately 66% of wholesale funding consists of covered bonds, collateralized by prime Dutch residential mortgage portfolio
- Per June 30, 2023, the wholesale funding consisted exclusively of:
 - Three CPTCB (EUR 1.5 billion in total) and two SBCB (EUR 1.0 billion in total²), maturing in 2024, 2025, 2027, 2030 and 2036, respectively; and
 - A Senior Non-Preferred bond (EUR 0.5 billion), issued in 2019 and maturing in 2024
- Since November 2022, the SBCB Programme is registered as 'European Covered Bond (Premium) program' by the Dutch central bank ('DNB')

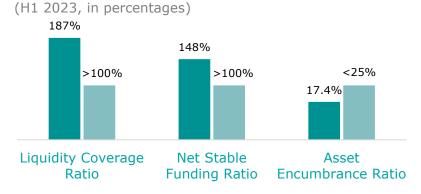

Capital and liquidity position

Strong capital and liquidity position exceeding regulatory requirements

Liquidity position

Actual Regulatory limit

1. All regulatory ratios are lower limits, except AER which is an upper limit

2. Regulatory requirements for total capital ratio and CET1 ratio also include the combined buffer requirement and pillar 2 guidance. Requirements as of June 30, 2023. Knab has received new requirements in September 2023.

Knab steers its capital and liquidity position within the regulatory requirements¹ and applies its internal policy for this to ensure that sufficient internal buffers are held against the minimum regulatory requirements

Capital

- Knab is self-supporting and does not need capital injections from the shareholder
- Strong Total Capital Ratio of 23.5%, which is well above regulatory requirements
- Leverage Ratio is comfortably above the regulatory requirement of 3%.

Liquidity

- The LCR and NSFR are both comfortably above the current regulatory requirements with a sizeable liquidity buffer in place to withstand stress scenarios
- Steering on a survival period of 24+ months (internal approach), where 6+ months is minimum regulatory requirement
- SAECURE 19 (retained RMBS) in place for contingent liquidity measures and additionally 2 retained covered bonds are issued of EUR 500 million each in November 2023
- Asset Encumbrance Ratio is well below requirements (70% of the limit)

Results Knab

Successful income increase and in de-risking its asset base

| Income | Interest income increased by EUR 87.1 million compared with H1 2022. This was mostly driven by increase in interest income on mortgages mainly due to maturing of amortization schedules, increase of the mortgage portfolio and on deposits following the increase in interest rates |
|-------------|---|
| | Interest income on consumer and SME loans decreased due to the decrease in the portfolio, to better-than-expected redemptions and the sale of unsecured lending portfolios |
| | Interest charges decreased by EUR 50 million, which was mainly driven by the change in interest on derivatives |
| | In line with Knab's growth strategy, fee and commission income increased |
| | Result from financial transactions declined mainly due to, although hedge accounting is applied, an ineffective portion in the profit and loss account on the basis risk to which the bank is exposed |
| Impairments | Knab's impairment reversals decreased by EUR 5.0 million in H1 2023. In 2023 the Zopa portfolio was sold and due to these divestments, combined with repayments and pre- payments in the unsecured loan portfolio further decrease of the provisions and the related impairment reversals were achieved |

Expenses

 Total operating expenses increased by EUR 9.8 million compared to FY 2022 because of regulatory tracks and IT implementation

Consolidated Income Statement

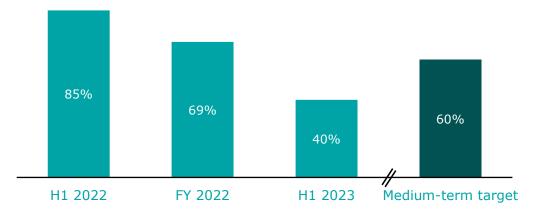

(FY 2022 – H1 2023, in EUR millions)

| | H1 2022 | FY 2022 | H1 2023 |
|------------------------------------|------------|------------|------------|
| Net interest income | 94.8 | 216.7 | 181.9 |
| Net fee and commission income | 14.1 | 30.6 | 17.9 |
| Result from financial transactions | (11.3) | (42.0) | (22.2) |
| Impairment reversals / (charges) | 5.8 | 3.4 | 0.8 |
| Expenses | (81.7) | (165.3) | (91.4) |
| Income before tax | 21.7 | 43.4 | 86.9 |
| Corporate income tax | (5.6) | (11.2) | (22.4) |
| Net income | 16.2 | 32.2 | 64.4 |

Key financial metrics over time

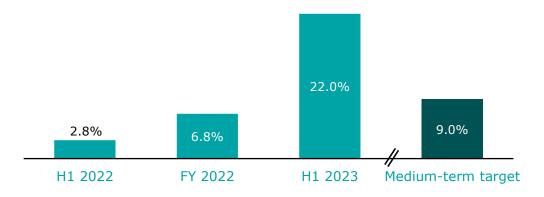

Income growth resulted in a reduction of the Cost-to-Ratio and a higher RoE

Cost-to-income ratio¹

• The cost-to-income ratio improved to 39.5% during H1 2023, mainly due to higher interest income

Return on Equity²

• The RoE increased from 2.8% in the first half of 2022 to 22.0% in the first half of 2023, which is primarily due to the higher operating result and increased shareholders' equity excluding the revaluation reserve

Knab manages its business based on a non-IFRS-EU financial measure, namely operating result before tax

1. Cost-to-income ratio is calculated as operating expenses divided by operating income as defined in the banks' operating result before tax measure

2. Return on Equity (RoE) is calculated as the annualized operating result after tax (applying a nominal tax rate) divided by average IFRS capital, excluding revaluation reserves over the period

Strategic priorities and KPIs

Cornerstone of strategy

Business & Financials

Capital, Liquidity & Funding

- Customer satisfaction is a core strategic priority of the bank, aiming to maintain a Net Promotor Score at +40
- The bank needs to grow its customer base to achieve scale, targeting a net growth of 40k core fee-paying customers per year
- Focus on cost reduction and improved efficiency, innovation and customer service
- S&P considers "to include group support in the ratings on Knab as we believe a.s.r. will provide extraordinary support to the bank until the transaction with BAWAG closes"¹
- Being a focused player in financial services with a strong market position in self-employed and small business markets
- High-quality assets, strong liquidity buffer and stable long-term profile
- "After the transaction, Knab's creditworthiness will likely benefit from support from BAWAG Group" according to S&P1
- Knab continues to increase its fee income by growing the number of fee-paying customers
- Increased cost control to ensure sufficient profitability with a 60% medium-term target cost-to-income ratio
- Operating result will be a key priority with a medium-term target Return on Capital of 9%
- Strong focus on ensuring regulatory compliance
- Strong capital and liquidity position exceeding regulatory requirements

The Dutch economy & housing market

Resilient Dutch mortgage portfolio with low defaults

• Structural features of economy and strict bankruptcy laws lead to limited loan losses

- The Netherlands has strong social security and adequate unemployment benefits
- Homeowners separating from each other is the main cause of defaults
- To the extent permitted under Dutch (bankruptcy) law, mortgage issuers have full recourse to borrowers' assets and earnings
- Low level of defaults¹ and arrears in the aftermath of the 2008 financial crisis despite pick-up in unemployment and decline in housing prices

Event Diagram

Event of Default

- The Asset Cover Test (ACT) will be replaced by the Amortisation Test
- If on the Maturity Date of the SB CB an Issuer Event of Default takes place and the CBC has insufficient funds to redeem the Covered Bonds (CBs) this will not trigger a CBC Event of Default
- As a result, the Maturity Date will be extended for a period of maximum 12 months
- During this extension period the administrator undertakes to sell (a part of) the cover pool and uses the proceeds thereof to (partially) repay the specific SB CB series on every Interest Payment Date within this period
- If the structure has insufficient funds to repay a specific series on the Extended Due for Payment Date, this will trigger a CBC default and result in all CBs becoming due and payable
- A breach of the Amortisation Test would also constitute a CBC Event of Default and results in all CBs becoming due and payable

Asset Cover Test

Asset Monitoring Agreement

- Adjusted Aggregate Asset Amount¹ >= outstanding • Covered Bonds
- First Regulatory Current Balance Amount >= 105% of outstanding Covered Bonds (as may be required under the Dutch CB regulation)
- Second Regulatory Current Balance Amount >= 100% of outstanding Covered Bonds (as may be required under the Dutch CB regulation)

Adjusted Aggregate Asset Amount = A + B + C + D - Z

- The calculation of 'A' includes:
 - 91.5% asset percentage -
 - 80% LTMV cut-off -
 - Deductions of savings deposits above EUR 100k (if issuer rating trigger (below 'A') is hit)
 - Deduction of arrears (>90 days) and defaulted receivables
 - Deduction of construction deposits -
 - Deduction of long-term mortgage loans if > 15% of Cover Pool -
- 'B' represents any unapplied cash
- 'C' and 'D' represent cash (including Reserve Account) and substitution • assets
- 'Z' represents the amount equal to the 'Interest Cover Required Amount'

Disclaimer 1/2

This presentation was prepared by Knab N.V. ("Knab" or the "Company") and may contain marketing materials and may be qualified as an advertisement within the meaning of Article 22 of the Prospectus Regulation ((EU) 2017/1129). In relation to the Securities (as defined below) a base prospectus has been drawn up and has been approved by the Dutch Authority for the Financial Markets (AFM) ("Prospectus"). The Prospectus, the relevant final terms, this presentation and other information are published on, and can be obtained from:www.knab.nl/investors/sbcb-programme.

Although the information in this presentation has been obtained from sources which the Company believes to be reliable, the Company does not represent or warrant its accuracy or completeness, and such information may be incomplete or condensed. The Company will not be responsible for the consequences of reliance upon any opinion or statement contained herein or for any omission. No action has been taken by the Company that would permit an offer of the securities (the "Securities") as referred to in the presentation or the possession or distribution of this presentation or any other offering or publicity material relating to such Securities in any jurisdiction where action for that purpose is required. The release, publication or distribution of this presentation in certain jurisdictions may be restricted by law and therefore persons in such jurisdictions into which it is released, published or distributed, should inform themselves about, and observe, such restrictions.

The Securities are complex financial instruments and are not a suitable or appropriate investment for all investors. The Securities are not intended to be offered, sold or otherwise made available, and should not be offered, sold or otherwise made available nor should this document be distributed, to retail investors. For these purposes, "a" retail investor "means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4 (1) of Directive 2014/65 / EU, (as amended," EU MiFID II "); (ii) a client within the meaning of Directive (EU) 2016/97 (as amended, the" IDD "), where that client would not qualify as a professional client as defined in point (10) of Article 4 (1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "Prospectus Regulation").

In preparing this presentation, the Company has relied upon and assumed, without independent verification, the accuracy and completeness of all information available from various sources. This presentation may be subject to variation to the extent that any assumptions contained herein prove to be incorrect, or in the light of future information or developments relating to the transaction or following discussions with relevant transaction parties. No assurance can be or is given that the assumptions on which the information is made will prove correct. Information of this kind must be viewed with caution and should not be treated as giving investment advice.

The information in this presentation reflects currently prevailing conditions and views, which are subject to change. Any historical information is not indicative of future performance. Opinions and estimates may be changed without notice and involve a number of assumptions which may not prove valid. Average lives of and potential yields on any securities cannot be predicted as the actual rate of repayment as well as other relevant factors cannot be determined precisely. No assurance can be or is given that the assumptions on which such information is made will prove correct. Information of this kind must be viewed with caution.

The Company assumes no obligation to notify or inform the recipient of any developments or changes occurring after the date of this presentation that might render its contents untrue or inaccurate in whole or in part. In addition, no representation or warranty, expressly or implied, is or will be made, no reliance should be placed on and no responsibility is or will be accepted by the Company or its respective affiliates, agents, directors, officers, partners, employees or advisers, as to the accuracy and completeness of the information contained in this presentation and nothing in this presentation shall be deemed to constitute such a representation or warranty or to constitute a recommendation to any person to acquire securities.

The recipient of this information acknowledges that the Company does not owe or assume any duty of care or responsibility to the recipient. The recipient of this presentation cannot derive any rights from any estimates, outlooks, highlights, overviews etc. included in this document. The Company and its respective affiliates, agents, directors, officers, partners, employees and advisers accept no liability whatsoever for any loss or damage howsoever arising from any use of this presentation or its contents or otherwise arising in connection therewith and any and all such liability is expressly disclaimed.

This presentation contains "forward-looking statements". Such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond the Company's control that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Company's present and future business strategies and the environment in which the Company will operate in the future. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The Company accepts no obligation to update the forward-looking statements contained herein to reflect actual results, changes in assumptions, or changes in factors affecting these statements. Recipients are cautioned not to place undue reliance on these forward-looking statements. The following are words that identify such forward-looking statements: aim, believe, estimate, target, intend, may, expect, anticipate, predict, project, counting on, plan, continue, want, forecast, goal, should, would, could, is confident, will, and similar expressions as they relate to the Company.

Disclaimer 2/2

This presentation is provided for discussion purposes only, does not constitute an offer or invitation for the sale, purchase, exchange or transfer of any securities or a recommendation to enter into transactions hereby contemplated and it does not constitute a prospectus or offering document in whole or in part. The description and the terms of the Securities included in this presentation are indicative and subject to further developments.

No representation, warranty or undertaking, express or implied, is made as to and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein. This presentation is not to be relied upon in any manner as legal, tax, regulatory, accounting or any other advice and shall not be used in substitution for the exercise of independent judgment and each person made aware of the information set-forth hereof shall be responsible for conducting its own investigation and analysis of the information contained herein.

The information contained herein is confidential and is intended for use only by the intended recipient and does not carry any right of publication or disclosure.

This document includes the following non-IFRS-EU financial measures: operating result before tax, Return on Capital and cost-to-income ratio. Return on Capital is a ratio using a non-IFRS-EU measure and is calculated by dividing the net operating result after tax (applying a nominal tax rate) by average IFRS equity excluding the revaluation reserve. Cost-to-income ratio is calculated as operating expenses divided by operating income as defined in the Company's operating result before tax measure. There is no IFRS financial measure that is directly comparable to the cost-to-income ratio. Knab believes that these non-IFRS-EU measures, together with the IFRS-EU information, provide meaningful supplemental information about the operating results of the Company's business including insight into the financial measures that senior management uses in managing the business.

No action has been or will be taken by the Company in any country or jurisdiction that would, or is intended to, permit a public offering of securities in any country or jurisdiction where action for that purpose is required. In particular, no Securities have been or will be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") or with any securities regulatory authority of any state or other jurisdiction of the United States and securities may not be offered, sold or delivered within the United States or to US persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws and may only be sold outside of the United States to persons who are not US persons in reliance on Regulation S under the Securities Act and otherwise in compliance with all applicable laws and regulations in each country or jurisdiction in which any such offer, sale or delivery of securities is made. The Company does not intend to register or to conduct a public offering of any securities in the United States or any other jurisdiction. This presentation and its contents may not be viewed by persons within the United States (within the meaning of Regulation S under the Securities Act).

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a client within the meaning of the 2 50113862 M 31920851 provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that client would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

This presentation is being distributed to, and is directed only at, persons in the United Kingdom in circumstances where section 21(1) of the Financial Services and Markets Act 2000 does not apply (such persons being referred to as "relevant persons"). Any person in the United Kingdom who is not a relevant person should not in any way act or rely on this presentation or any of its contents. Any investment activity in the United Kingdom (including, but not limited to, any invitation, offer or agreement to subscribe, purchase or otherwise acquire securities) to which this communication relates will only be available to, and will only be engaged with, such persons.

The information contained herein may not be reproduced or redistributed (in whole or in part) in any format without the express written approval of the Company.
